

MegaPath offers you a new way of working.

MegaPath is one of the largest privately held end-to-end, facilities-based provider serving small, medium, and enterprise businesses. MegaPath leverages its wide selection of data services, Voice over IP (VoIP) and Security technologies to enable businesses to lower costs, increase security, and enhance productivity. MegaPath focuses on small, medium, and enterprise businesses nationwide.

MegaPath Services

- **Data.** MegaPath's wide range of data services are cost-effective, high-speed, "always-on" nationwide connectivity solutions that are easy to deploy, manage, and support. MegaPath's Business Broadband includes Business Ethernet, T1 and Bonded T1, Business DSL, DS3-OCx, Cable, Satellite, and Wireless Broadband.
- **Voice.** MegaPath Business Voice services save money while providing advanced calling features that a traditional phone service can't touch. MegaPath uses a private voice-optimized network for crystal clear sound quality and guaranteed Quality of Service (QoS). MegaPath's Business Voice services include Hosted Voice and Integrated Voice.
- **Security.** MegaPath delivers tailored services that address the remote access needs of a widely distributed workforce. Leading VPN and security technologies are combined with unmatched design, deployment, monitoring, management, reporting, and support capabilities. Tailored services include Private Networking Services, Unified Threat Management, and Compliance Services.
- **Customer Care.** Quality customer service is an essential part of MegaPath's identity. By applying expert systems and processes, MegaPath delivers mission-critical reliability and performance backed by stringent Service Level Agreements (SLAs).
- **Network Systems.** MegaPath leverages its MPLS, fiber-optic backbone network through direct network and systems interconnections with the country's leading broadband access providers. The MegaPath Customer Portal facilitates smooth implementation, management, visibility, and control of its security and advanced voice and data services. The result is fully managed, cost-effective services with superior reach, reliability, performance, and customer control.

MegaPath leverages these solutions to significantly improve its clients' productivity through the use of new applications and enhanced communications between their headquarters, branch offices, retail stores, mobile workers, and business partners.

Benefits At a Glance

End-to-End Nationwide Infrastructure

Our privately managed MPLS network provides exceptional performance, total redundancy, and the flexibility to deliver true voice Quality of Service.

One Provider, One Bill

Reduces the time, money, and complexity of managing multiple vendors.

Network Built for Voice

We manage data traffic end-to-end to provide high-quality voice and data speed.

Experienced, Supportive Customer Service

Customers are enthusiastic about our U.S.-based customer support; most would recommend us to a friend or colleague.

Small Business Focus

Our network and business model was developed to satisfy demanding tech-savvy professionals and mission-critical businesses.

MegaPath's Promise

MegaPath provides business-class data, IP voice, and security services so that small, medium, and enterprise customers can future-proof their businesses by securely managing their networks and communications with the competitive edge necessary in today's economy.

Communications that lead your business, keeping you a step ahead in today's economy.

Don't Take Our Word For It

"As we've grown over the past five years, MegaPath has helped us save money and given great support and services. Now that we have 450 employees and are pushing \$70 million, I hope MegaPath will be with us the rest of the way."

- Rich Pappa, CIO, MCMC, LLC

"I was initially interested in MegaPath because of the cost savings, but once they had us on the phone I was just stunned. I didn't think customer service like that existed in the U.S. anymore. Every person I've dealt with has been absolutely stellar. They really do everything they can to make a situation 100% perfect."

- Christopher Joyce, Chairman and CEO, Joyce Co.

"We were an early adopter of VoIP. We always believed in the technology, but our first provider had a lot of issues and cost us a lot of money. With Hosted Voice from MegaPath, we can guarantee our clients reliable service and a fantastic feature set."

- Todd Short, Co-Founder, Balance Networks, Inc.

The MegaPath Advantage

Privately managed, nationwide network.

Built for speed, security, and flexibility.

Convenience.

One provider for all of your voice, data, and hosting needs; one provider, one monthly bill.

Simple and predictable pricing.

Our pricing structure helps manage monthly costs and reduce total cost of ownership.

Legendary customer support.

Experienced, U.S.-based technical and account service 24 / 7 / 365.
