

## DSL is high-performance broadband with reliability your business can count on.

DSL services provide download speeds up to 20 Mbps over a nationwide, multi-redundant private network that optimizes performance and security. DSL is an ideal broadband solution for small and medium-sized businesses that download large files or use the Internet extensively, as well as branch offices and remote workers. We offer a variety of DSL service options to meet the unique needs of your business.

### Lineshare ADSL

Allows information to flow asymmetrically up to 6 Mbps/768 Kbps for quicker email delivery and file downloading.

### Dedicated ADSL

Gives you the speed, reliability, and throughput of ADSL without phone service from a local phone company (dedicated line).

### SDSL

A dedicated line service that offers a symmetrical data transfer rate, typically up to 1.5 Mbps with guaranteed uptime and Mean Time To Repair (MTTR).

Go to [www.megapath.com/sla](http://www.megapath.com/sla) to review our SLAs.

### Benefits

Speed you need

High-performance network

Service level agreement guarantee

24 / 7 / 365 Support
