

MegaPath Duet SIP Trunking

Make the most of your
IP-PBX investment

MegaPath Duet SIP Trunking Makes It Easy to Save

Get More from Your Existing Phone System

Duet™ SIP Trunking service from MegaPath delivers full-featured business-class phone service and lightning fast 1.5 Mbps Internet T1 service for less using your existing IP-PBX system. This service combines both voice and Internet so you pay for only one circuit, saving your business money. Since you use the IP technology you've already invested in, there are no upfront costs and no new equipment or phones to buy so you can start saving today.

Duet SIP Trunking is ...

Affordable – Save money by using your existing IP-PBX equipment and phones, combining your voice and data traffic onto one circuit

Reliable – Voice traffic never touches the public Internet and is prioritized over data packets so you can count on crystal clear call quality every time

Easy – We make it easy to switch your service and guarantee no start-up costs or downtime, and we make it easy to budget by offering a flat monthly charge for additional lines, unlimited local calling, and a low per minute rate for your domestic long-distance service

Business-Class Technology for Quality and Reliability

MegaPath Duet SIP Trunking is a business-grade phone and 1.5 Mbps Internet T1 service delivered over a robust, private all-optical MPLS network. Unlike consumer-grade VoIP, MegaPath's Duet service never rides the public Internet so your phone calls are always crystal clear and the reliability, security, and overall performance are second to none.

MegaPath Duet SIP Trunking

Big Savings You Can Count On

MegaPath Duet SIP Trunking relies on next-generation Voice over Internet Protocol (VoIP) technology that lets us deliver phone and 1.5 Mbps Internet T1 service over a single circuit. This reduces our network expenses, and we pass these big savings on to you. In addition, you don't have to pay separate bills for your voice and data services. With Duet SIP Trunking, you get both voice and data for one low price.

Business Features that Make Sense

With MegaPath Duet SIP Trunking you can get as many phone numbers (DIDs) as you need so all your employees have their own phone number regardless of how many lines you purchase. Duet SIP Trunking also includes optional dedicated port(s) for fax machines, alarm systems, and other devices. With unlimited local calling and competitive domestic long-distance rates, caller ID and call waiting, you can enhance the performance of your existing IP-PBX with features that make sense to a small-to-midsize business.

Get More with MegaPath

In addition to Duet SIP Trunking service, MegaPath offers nationwide broadband connectivity and Managed Security services for small businesses and large — all the way up to Fortune 500 enterprises. From Virtual Private Networks (VPNs) to advanced security and remote access technologies, we enable businesses to lower costs, increase productivity, and maximize their competitive advantage. And, all MegaPath services are backed by our premier service level agreements and 24x7 technical support.

About MegaPath

Founded in 1996, MegaPath is relied on by over 22,000 business customers at over 70,000 business locations. MegaPath offers a wide range of nationwide broadband connectivity and managed services for small businesses and larger, all the way up to Fortune 500 enterprises.
