# MegaPath T1 Services

## Premium T1 Service

For organizations running point of sale systems, business-critical applications like supply chain management, accounting, FTP, or project collaboration – even small business e-commerce, the higher speed (up to 6.0M) and 5 9's of bandwidth reliability provided by the MegaPath Premium T1 is their best performance-for-price choice.

**T1 service connections available, including the local loop.**

Check which speeds are available in your areas.

- 128k x 128k
- 256k x 256k
- 384k x 384k
- 768k x 768k
- 1.0M x 1.0M
- 1.5M x 1.5M
- 3.0M x 3.0M
- 4.5M x 4.5M
- 6.0M x 6.0M

| Feature  | T1                     | Premium T1 |
|--|------------------------|------------|

| Anti-Virus Protection                            | Available for Purchase | ✓ *        |

\* Some restrictions apply.

MegaPath T1 services are business-class broadband connections packed with business productivity and enhancing features to support multiple users, websites, and enterprise applications.

- Business-class router
- 20 hours dial back-up service per month
- 50 email accounts
- 100 MB of Web space
- 10 GB/month data transfer for your Web space
- Domain name server (DNS hosting) for one domain
- 1 static IP (with option for up to 13 extra static IPs)

## Compare MegaPath T1 services to your local internet service provider

Unlike most local ISPs, MegaPath operates its own nationwide network and is recognized as a Tier 1 Internet Service Provider. With direct connectivity to more than 100 other Tier 1 ISPs around the country, the MegaPath network ensures that your traffic will be routed to its destination much faster, with greater reliability, than is possible with a local ISP. MegaPath is the premier choice for connectivity.
