

MegaPath DSL

High-speed, Business-class
Internet at a Price You
Can Afford

It's a given that your business needs affordable, reliable, high-speed Internet. With MegaPath DSL, you can benefit from a comprehensive, low-cost broadband solution from the largest provider of managed Internet services in North America. Here's what you get.

Speed — MegaPath DSL is up to 100 times faster than dial-up. And it's always-on, meaning you save time by avoiding connect-time waiting.

Competitive Prices — Through efficient technology, MegaPath can offer faster, more reliable DSL for lower prices than those charged by phone companies and other providers.

No-hassle, No-downtime Installation —Whether you're upgrading your old dial-up connection, switching from another provider, or are new to business-grade Internet, MegaPath makes the transition painless by providing the equipment you need along with free planned, scheduled installation.

Proactive Support — MegaPath provides 24x7 technical support for all DSL customers. And we constantly monitor the performance of your connection for top performance.

Scalability — If you need more bandwidth or service at new locations, MegaPath DSL connectivity can grow and go with you. MegaPath has the industry's most comprehensive broadband coverage in North America.

Simplified Billing & Management — No matter how many locations you have, our simplified billing process makes service charges easy to track. And our online Customer Portal will help you manage your service with order, account, and usage reports.

Service Level Agreements—Our industry-leading SLAs ensure that you get the performance and reliability that your business demands.
