

NetSuite CRM Integration

MegaPath Connector

Integrate MegaPath Hosted Voice with NetSuite CRM

The MegaPath Connector is a simple plug-in that can seamlessly connect MegaPath Hosted Voice with NetSuite CRM in a matter of minutes, allowing you to capture every customer and prospect interaction, increase productivity, reduce response time and build better relationships.

Integration Features

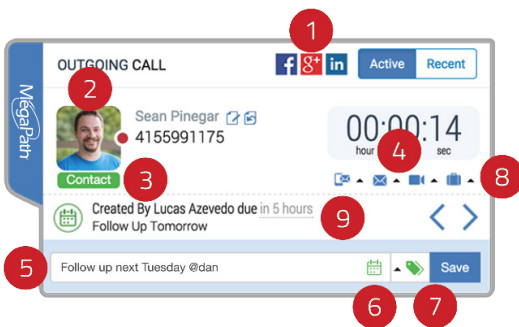

Improve conversion rates and capture more value on marketing spend. The MegaPath Connector helps you measure and reduce response time to inbound leads through its native connection to NetSuite. Integration features include:

- ▶ Native integration via NetSuite REST API
- ▶ Click-to-dial on any page
- ▶ Caller info screen pop
- ▶ Log inbound/outbound calls automatically
- ▶ Easy note taking on any page in your browser
- ▶ Relate to opportunities, cases & custom objects

Advanced Reporting

- ▶ Advanced analytics dashboard and reporting
- ▶ Company-wide, team-based and user analytics
- ▶ Real-time and historic data
- ▶ Total Calls/Talk-time
- ▶ Average talk time
- ▶ Connect rate by hour
- ▶ Lead response time
- ▶ Gamification/Leaderboards
- ▶ Embeddable reporting inside NetSuite CRM

Intuitive Interface

1. Social Profile Integration
2. Contact Photo
3. Record Type
4. Send Email or Invite to Video Conference
5. Write Notes or CC Colleagues Using @ mentions
6. Automatically Create Follow Up Tasks
7. Log Call Dispositions / Update Fields
8. Log Calls Against Cases / Opportunities
9. Review Call Activities
