MegaPath One
Unified Communications for Improved Collaboration

MegaPath One accelerates teamwork with unified messaging tools. Call, chat, SMS text, video conference and screen share, in one app, on any device.

Web & Video Conferencing

- Improve teamwork by bringing together individuals and virtual workgroups for scheduled and impromptu meetings
- One-click entry into the conference session. One-click escalation from chat to audio or video conferencing
- Uses WebRTC browser protocol, so participants without MegaPath One can join a session with a single click, with no app required to download

Presence & Instant Messaging

- See when your contacts are available
- Conduct one-on-one or group IM chats
- Escalate from IM chat to audio or video conference with a single click
- View presence from within Microsoft Outlook, and click to chat, text or call

SMS Text

- Send/receive SMS texts to/from contacts with mobile numbers from any device
- Keep your personal phone number private. Texts sent to/from the MegaPath One client use your business phone number

Desktop/Screen Sharing

- Share your screen, easily, with up to 145 participants
- Swap screen sharing with guests
- Make meetings more effective; keep attendees engaged

HD Video Calling

- Add a personal touch to communicating with colleagues, distributed teams, partners and customers
- See real-time reactions during calls; help everyone stay engaged
- Build consensus and improve understanding through visual cues

HD Voice Calls

- Use your MegaPath One softphone, MegaPath desk phone, and/or mobile phone interchangeably for outbound and inbound calling using your business line and company minutes plan

OS and Device Support

- MegaPath One application works with popular operating systems and devices including Windows PCs, Mac OS X, iPhone, iPad, and Android smartphones, and tablets
